## Administrator Rights

### Login

Admins can easily login with their credentials, new admins can be added only from present admins

Username	<input type="text"/>
Password	<input type="password"/>
<input type="button" value="Exit"/>	<input type="button" value="Login"/>
<a href="#">Login as student</a>	

### New Student /View Student

With a sleek and user-friendly interface, the Student Panel allows you to quickly and easily add new students, manage existing students, and keep track of student information.

Student ID	Name	Surname	Course Name	Branch Name
1310760	Yousef	Nassim	B.Tech	ELECTRICAL
1310757	Mohamed	Laaraj	B.Tech	Mechanical
1366099	Javier	Figueiro	B.Tech	Mechatronics

## Students Rights

### Login

To sign in, students need to provide their student ID and last name. This feature ensures that the students are able to access the book catalogue and view issued books in a secure and convenient manner, as the login information is unique to each student.

StudentID	<input type="text"/>
Last name	<input type="text"/>
<input type="button" value="Back"/>	<input type="button" value="Login"/>

### Catalogue/View Issued Books

With this feature, students have the ability to view the book catalogue and see the books that they only have issued. This allows students to keep track of the books they have taken out and when they are due back. This feature helps students return the books in a timely manner.

ISBN	Title	Author	Publisher	PublicationYear	IssueDate	DueDate	ReturnBook
9780811232432	No Longer Human	Dazai Osamu	Norton & Com...	2022	05-02-2023	06-02-2023	Yes

### New Book/Catalogue

With the "Add Book" feature, administrators can quickly and easily enter new book information, including title, author, ISBN, and any other relevant details.

Book Catalogue
<a href="#">Search</a> <a href="#">Delete</a> <a href="#">Refresh</a>

The "Catalogue" feature provides a comprehensive view of all books in the system, this allows administrators to keep track of the library's inventory and manage the borrowing process with ease.

### Issue Book/Return Book

The issue book and return book features in the app allow for efficient and secure management of library resources. An administrator can issue books to students by entering the ISBN, student ID, issue date, and due date. Likewise, an administrator can return books by entering the ISBN and student ID. This ensures that the book borrowing process is streamlined and all books are accounted for, making it easier for the administrator to keep track of the library's resources.

ISBN	<input type="text"/>
StudentID	<input type="text"/>
Issue Date	<input type="text"/>
Due Date	<input type="text"/>
<input type="button" value="Issue"/>	<input type="button" value="Search"/>
<input type="button" value="Return Book"/>	<input type="text"/>

### Statistics

Two statistical tables display the details of issued and returned books, including the issue date and due date, providing a comprehensive overview of library activity.

Issue Details					
019264508X	Yousef	019264508X	0008842147	0008842147	13-02-2023

Return Details					
9780811232432	No Longer Human	9780811232432	Yousef	05-02-2023	06-02-2023

"We'll help you shelf your worries!"

### Conclusion

With its intuitive interface and comprehensive functionality, the Library Management System is the perfect solution for managing a library of any size.

Whether you're a small school library or a large public library, this system has everything you need to streamline your operations and provide an outstanding experience for your patrons.
